

GRADE SIX...WEEKLY OVERVIEW

January 23 - 27, 2017

Week 21

You cannot do a kindness too soon, for you never know how soon it will be too late.

- Ralph Waldo Emerson

SCIENCE: More landfill observations with precipitation this week!! What is happening underneath that soil? Our current study will transition to the emissions that many of our energy sources emit and what happens to our Earth's well being! Scientific studies will be used to support all theories. Thinking caps will be required!

LANGUAGE ARTS: This week we'll continue reading Roll of Thunder, Hear My Cry. Over the weekend you should have finished Chapter 8 (pgs. 171-194). and Chapter 9 (pgs. 195-217). We will be doing some in-class work with these chapters today. Tonight for HW you should read Chapter 10 (pgs. 218-241) and will have an assignment to complete on Tuesday. Chapter 11 (pgs. 242-256) will be due Wednesday and you will have work to complete in class. And finally, you'll need to read Chapter 12 (pgs. 257-276) Wednesday night and be ready for an open forum discussion on Thursday.

MATH: This week we will be practicing with decimal multiplication and learning about decimal division. We will again use our knowledge of fractions as a way to understand decimal division. Expect to have a few choices with regards to what you practice over the course of the week. You will have a skill sheet due on Thursday and will likely have some classwork to finish for homework. If you want to find more information about dividing decimals at home check out Khan Academy's resources at this link:

SOCIAL STUDIES: Now that our energy unit is wrapping up, our focus for the next few weeks will be on Current Events. Each Monday you will be given an Article of the Week, an assignment and a rubric to follow. Each Thursday we will have open forum discussions about the topics. More information will be given in class.
