

Dear parents of almost 7th graders!

I want you all to know that your children held a surprise retirement party for me on Friday that is unforgettable. They made the most thoughtful, detailed and exquisite cards, a poster of messages, and a link of paper rings with complimentary adjectives on each one - all treasures that I am most grateful for.

This past year at NHS went by way too quickly, but I have accumulated two years of wonderful memories with your children. They have made me feel valued, appreciated and loved – so please thank them for me. I would be neglectful if I didn't also thank you – the parents – for being the role model for the kindness that I have been shown, so I am also thanking you.

I look forward to hearing wonderful stories about this fabulous bunch of kids! Hope you all have a happy and healthy summer.

Most sincerely,

Pamela Tobey
